0	235

Participants will need to register their business with Farming Connect in order to access the system to start the Benchmarking project.

Only one application per farming business is permitted.

Data submitted must be from the 2016-17 or 2017-18 financial years.

Participants must have a minimum of 235 breeding ewes or 25 beef breeding cattle*, or a combination of both as detailed in the table.

*stocking level taken from the chosen financial year and based on animals that were put to tup/bull during that year.
